

TOP 50 CONDITIONS ASSOCIATED WITH IMMUNE-SYSTEM INVOLVEMENT OR IMPLICATIONS, RANKED FROM MOST TO LEAST COMMONLY OCCURRING

TOP 50 AANDOENINGEN DIE GEASSOCIEERD ZIJN MET IMMUUNSISTEEM BETROKKENHEID OF GEVOLGEN, GERANGSCHIJKT VAN MEEST NAAR MINST VAAK VOORKOMEND

1. Allergic rhinitis (hay fever)	1. Allergische rhinitis (hooikoorts)
2. Asthma	2. Astma
3. Recurrent respiratory infections	3. Terugkerende luchtweginfecties
4. Urinary tract infections	4. Urineweginfecties
5. Chronic fatigue syndrome	5. Chronisch vermoeidheidssyndroom
6. Irritable Bowel Syndrome (IBS)	6. Prikkelbare darm syndroom (IBS)
7. Long COVID	7. Long COVID
8. Eczema	8. Eczeem
9. Shingles	9. Gordelroos
10. Psoriasis	10. Psoriasis
11. Inflammatory myopathy (chronic muscle inflammation)	11. Inflammatoire myopathie (chronische spierontsteking)
12. Rheumatoid arthritis	12. Reumatoïde artritis
13. Celiac disease	13. Coeliakie
14. Gout	14. Jicht
15. Multiple sclerosis	15. Multiple sclerose
16. Systemic lupus erythematosus (Lupus)	16. Systemische lupus erythematosus (Lupus)
17. Vitiligo	17. Vitiligo
18. Type 1 diabetes	18. Type 1 diabetes
19. Chronic inflammatory dermatosis (Rosacea)	19. Chronische inflammatoire dermatose (rosacea)
20. Crohn's disease	20. Ziekte van Crohn
21. Alopecia areata	21. Alopecia areata
22. Ulcerative colitis	22. Colitis ulcerosa
23. Ankylosing spondylitis	23. Ankyloserende spondylitis
24. Reactive arthritis (Reiter's syndrome)	24. Reactieve artritis (syndroom van Reiter)
25. Fibromyalgia	25. Fibromyalgie
26. Hypo/Hyper thyroidism and Hashimoto's disease	26. Hypo/hypertyreoïdie en de ziekte van Hashimoto
27. Sjögren's syndrome	27. Sjögren-syndroom
28. Ménière's disease	28. Ziekte van Ménière's
29. Autoimmune hepatitis	29. Auto-immuun hepatitis
30. Anaemia (Pernicious & Hemolic)	30. Anemie (pernicieus en hemolisch)
31. Graves' disease	31. Ziekte van Graves
32. Guillain-Barré syndrome	32. Guillain-Barré-syndroom
33. Goodpasture syndrome	33. Goodpasture-syndroom
34. Addison's disease Hemolytic anemia	34. Ziekte van Addison Hemolytische anemie
35. Sarcoidosis	35. Sarcoïdose
36. Idiopathic thrombocytopenic purpura (ITP)	36. Idiopathische trombocytopenische purpura (ITP)
37. Thrombotic thrombocytopenic purpura (TTP)	37. Trombotische trombocytopenische purpura (TTP)
38. Hemolytic-uremic syndrome (HUS)	38. Hemolytisch-uremisch syndroom (HUS)
39. Chronic inflammatory demyelinating polyneuropathy (CIDP)	39. Chronische inflammatoire demyeliniserende polyneuropathie (CIDP)
40. Antiphospholipid syndrome	40. Antifosfolipidensyndroom
41. Mixed connective tissue disease	41. Gemengde bindweefselziekte
42. Chronic granulomatous disease	42. Chronische granulomateuze ziekte
43. Hereditary angioedema	43. Erfelijk angio-oedeem
44. Eosinophilic esophagitis	44. Eosinofiele slokdarmontsteking
45. Immune thrombocytopenia	45. Immuuntrombocytopenie
46. Mastocytosis	46. Mastocytose
47. Hypersensitivity pneumonitis	47. Overgevoeligheid pneumonitis
48. Amyloidosis	48. Amyloïdose
49. Autoimmune polyendocrine syndromes (APS)	49. Auto-immuun polyendocrien syndroom (APS)
50. Paraneoplastic syndromes	50. Paraneoplastische syndromen
